Hesston College

Are you interested in the human mind? You are in the right place! Psychology is all about human behavior and what dictates it. Why do people behave the way they do? What makes people happy or unhappy? What are the relationships between the mind and the brain? Majoring in psychology will allow for you to explore the behavior of people and how their minds work and apply it to the modern world. Our scientific approach to understanding human behavior equips students with a solid foundation of analytical, research and clinical skills for careers in many fields with a human service emphasis.
