

NURSING PROFESSIONAL LICENSURE DISCLOSURE

Hesston College's nursing program is intended to prepare students for Kansas state licensure requirements. Admission into the nursing program does not guarantee students will obtain a license. Licensure requirements are set by agencies that are not controlled by or affiliated with Hesston College, and licensure requirements can change at any time at the discretion of the state/territory licensing board. Hesston College has not made a determination of whether the curriculum meets educational requirements in any state other than Kansas.

Students planning to pursue licensure in states other than Kansas are responsible for determining if they will meet their state's requirements for licensure. For any questions regarding licensure in a state other than Kansas, contact the state/territory agency directly. Contact the Hesston College Nursing Department for program curriculum information. Below is a link to access each state/territory nursing license agency:
